

BENCHTOP CENTRIFUGES

ROTOFIX 32A / UNIVERSAL 320 / ROTINA 380 / ROTINA 420 / ROTANTA 460

Long-term solutions for your evolving laboratory. Hettich manufactures an extensive range of general-purpose benchtop centrifuges for nearly any standard laboratory application.

Diverse range of rotors and accessories for multiple applications. Our benchtop centrifuges offer general purpose capability for medium to high-throughput centrifugation. These units provide all-in-one capability with specialty accessories to service labs in Clinical, Research, Agriculture, Food and Beverage, Petrochemical and more. Rotors and buckets support medium to high capacity work-flows with optional bio-containment and phenol-resistant lids for safe centrifugation of hazardous samples. Movable base cabinets extend your bench space to provide extra storage and centrifuge portability.

Built in Germany for lasting performance. All Hettich centrifuges are made from high quality, durable materials for a long in-field service life. Each unit is backed by a limited 5-year warranty and offer all metal containment, maintenance free motors, metal lid locks and easy to use control panels.

Reliable, quiet and safe. You can rely on our centrifuges to deliver optimal performance day-in and day-out in a safe, distraction free environment.

Pre and post sales support for the life of your product. Not only are Hettich products built for the long-term, our dedicated support team is with you as well. We are here to keep you up and running from the centrifuges first day on the bench throughout its long life span. We even maintain parts for our centrifuges for up to 10-years after product obsolescence.

HETTICH BENCHTOP CENTRIFUGES

MODEL	ROTOFIX 32 A	UNIVERSAL 320 R	ROTINA 380 R	ROTINA 420 R	ROTANTA 460 R
Ideal for	Rugged and simple design for uncomplicated performance. Ideal for all standard tubes up to 100 ml and specialty tubes such as cytology clips/funnels and chrome bath tubes.	Compact footprint, only 16 in. wide, with or without temperature control. Capable of spinning a variety of standard tubes, plates, cytology clips and bottles (≤ 200 ml).	Only 18 in. wide with or without temperature control. Capable of spinning a wide variety of tubes.	For large sample volumes, yet not overly large in size. Featuring Versa-Rotor for tubes, bottles and plates eliminating the need to change, purchase or store additional rotors. Refrigeration is optional.	High-capacity and variety for the most demanding work-flows. High-capacity Versa-Rotor for tubes, bottles and plates eliminating the need to change, purchase additional rotors. Refrigeration is optional.
